DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-43 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims are directed to a method, process or system for performing a sequence of steps which is merely a program per se. While the program contains functionally descriptive material the recording of the functionally descriptive material on some computer-readable medium which would enable the functionality to be realized fails to be recited.

Relative to applicants' remarks concerning claims 1 and 17, all of the recited steps are program directed, i.e. they are specified by the program, but the claims are lacking structure that would enable the functionality to be realized.

Relative to applicants' remarks concerning claim 22, the addition of the term "storage" does not limit the medium to the storage/recordable medium as opposed to the transmission/communication medium because specification fails to define the phrase "storage medium" and because a transmission/communication medium does store the program.

Contrary to applicants' remarks concerning claim 33, an execution unit is not limited to a special purpose hardware device because it is not so defined in the specification and because a program per se may be considered an execution unit because it calls for execution of the recited steps.

Allowable Subject Matter

2. Claims 44-52 are allowed.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

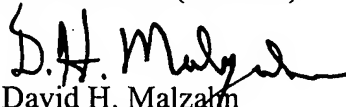

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
